The Occupational Outlook Handbook is the government's premier source of career guidance featuring hundreds of occupations—such as carpenters, teachers, and veterinarians. Revised every 2 years, the latest version contains employment projections for the 2016-26 decade. The purpose of this page is to provide resources in the rapidly growing area of computer-based statistical data analysis. This site provides a web-enhanced course on various topics in statistical data analysis, including SPSS and SAS program listings and introductory routines. Topics include questionnaire design and survey sampling, forecasting techniques, computational tools and demonstrations. Find out what you'll learn. At Colorado State, there are two primary methods to explore your passions: majors and concentrations. A major is the degree you will earn at graduation, while a concentration focuses on a specific field of study related to a major. The instructors, Cassandra Runyon and Noah Petro, both have their PhD's in Geology and have been working in the field for over 10 years.
