Bhd. is a professional security system company based in Malaysia, providing service such as system integration, system design, hardware installation and maintainance for full range of electronic security system, encompassing access control, CCTV, intruder's alarm system and we also specialize in integrated security solution. Since incorporated, SKA Technology has designed ... The PDP-8 was a 12-bit minicomputer produced by Digital Equipment Corporation (DEC). It was the first commercially successful minicomputer, with over 50,000 examples being sold over the model's lifetime. Its basic design followed the pioneering LINC but had a smaller instruction set, which was an expanded version of the PDP-5 instruction set. Similar machines from DEC were the PDP-12 which was ...
