Wiley-Blackwell's "Clinical Cases" series is designed to recognize the centrality of clinical cases to the profession by providing actual cases with an academic backbone. Clinical Cases in Prosthodontics grounds itself in core principles of this rehabilitative specialty and demonstrates their practical, every-day application through range of case presentations building from simple to complex and from common to rare. Secondary literature can be found in the Journal of Evidence-Based Dental Practice, Evidence-Based 6 Clinical Cases in Prosthodontics Dentistry journal, the critical summaries at the ADA Center for Evidence-Based Dentistry and the Centre for Evidence-Based Dentistry. Cases conclude with review questions and relevant literature citations supporting each answer. Ideal for practitioners and students alike, Clinical Cases in Prosthodontics is the ultimate resource linking evidence-based research to every-day application.
