

Download Google Latitude Manual Location

Official Google Maps Help Center where you can find tips and tutorials on using Google Maps and other answers to frequently asked questions. This Blog explains how to find the Latitude / Longitude co-ordinates by using Google Geocoding API. This API will return latitude and longitude with respect to a address of a location in Asp .Net. We have to pass locations address as a parameter in address query strings in the Google API URL and returns to the Geographical Co-ordinates and other information in XML or JSON format.
