

Download Infertility Is Not Just A Problem Of The Couple

No, infertility is not always a woman's problem. Both men and women can contribute to infertility. Many couples struggle with infertility and seek help to become pregnant, but it is often thought of as only a woman's condition. Infertility is "a disease of the reproductive system defined by the failure to achieve a clinical pregnancy after 12 months or more of regular unprotected sexual intercourse (and there is no other reason, such as breastfeeding or postpartum amenorrhoea). Primary infertility is infertility in a couple who have never had a child. Infertility or a couple being unable to conceive a child can cause significant stress and unhappiness. There are numerous reasons for both male and female infertility but many ways in which ...Fertility What is Normal Fertility and When Does it Become Infertility? What is Infertility? Most people will have the strong desire to conceive a child at some point during their lifetime.
