It seeks to explain the patterns and consequences of transactions and interactions between the inhabitants of different countries, including trade, investment and migration. The Washington Consensus is a set of 10 economic policy prescriptions considered to constitute the "standard" reform package promoted for crisis-wracked developing countries by Washington, D.C.-based institutions such as the International Monetary Fund (IMF), World Bank and United States Department of the Treasury. The term was first used in 1989 by English economist John Williamson.<sup>2</sup> could be used in that process. The course builds on "Macroeconomic theory" and attempts to provide students a flavor of macroeconomic policy in action.
