(????, Minoruta) was a Japanese manufacturer of cameras, camera accessories, photocopiers, fax machines, and laser printers. Minolta was founded in Osaka, Japan, in 1928 as Nichi-Doku Shashinki Shoten (???????, meaning Japanese-German camera shop). It is perhaps best known for making the first integrated autofocus 35mm SLR camera system. The company history began in 1928, when the Nichi-Doku Shashinki Shoten ("Japanese-German Photo Company") was founded. The first camera manufactured by this company was the "Nifcalette" (NIFCA being an acronym for Nippon Foto Cameras). The company name changed several times: in 1931 it became Molta; in 1937 it became Chiyoda; and in 1962 it was changed again to Minolta.
