The laws of physics are fine-tuned for life—exactly what we would expect if the universe were intelligently designed. Harry Cliff Have we reached the end of physics? Why is there something rather than nothing? Why does so much interesting stuff exist in the universe? Particle physicist Harry Cliff works on the Large Hadron Collider at CERN, and he has some potentially bad news for people who seek answers to these questions. Physics Questions including "How would you increase horsepower and reduce speed on an 83 Cougar with a 3.8 without a total change over" and "Does a soccer ball go faster in the air on a cold or ... Dreams are so strange and carry so much significance to us that we often feel the need to tell people about them, sometimes at tedious length. But if you understand what goes on inside the brain ...
