

Download Operator Manual Mph Bee Iii Radar

MPH BEE III Specifications The MPH BEE III is designed for convenient use by law enforcement agencies to measure the speed of motor vehicles when operated from a moving or stationary patrol vehicle. The BEE III utilizes the well-known and legally accepted Doppler principle and has been type accepted by the Federal Communications Commission. BEE III is the most compact dash mounted directional police radar available, featuring MPH's patented Automatic Same Direction (ASD) technology. MPH Industries, Inc. designed the BEE III Doppler radar with the police officer in mind. The radar is easy to operate and includes the performance and features needed for today's traffic environment. The BEE III is the most useful and flexible radar available; it is a full-featured moving radar with fastest and same direction capability.
