

Download Performance Modifying Chevy Trucks For Street Strip And Off Road S A Design

When maximum air flow is all you need, this Cold Air Intake System Race Filter has you covered. Designed for the Camaro SS drag racer, this high-flow dry media race filter provides up to a 51% reduction in restriction at 350 g/sec (compared to the production Camaro LT1 Air Induction System) for the ultimate off-road drag strip performance. Check out our 1953 Chevy pickup build. We took a truck that sat in a field for 20 years and brought it back to life using the parts that we sell! The king of all Rat engines, the ZZ 572/720R big block is Chevy Performance's baddest crate engine - see images, dyno specs, installation info and more. K&N racing videos, air filter and air intake installation videos, product testing videos, filter cleaning and oiling videos, product feature videos and more, arranged by date of release.
