This page provides resources for certified commercial / non-commercial and private pesticide applicators in the Commonwealth. Much of the information has been prepared or adapted by extension specialists in the University of Kentucky College of Agriculture Departments of Entomology, Plant Pathology, and Weed Science. Pesticide use raises a number of environmental concerns. Over 98% of sprayed insecticides and 95% of herbicides reach a destination other than their target species, including non-target species, air, water and soil. Pesticide drift occurs when pesticides suspended in the air as particles are carried by wind to other areas, potentially contaminating them.
