

Download Seadoo 2015 Shop Manual

Hey guys, I have a 2000 Seadoo GSX and everything has ran GREAT except for thr adjustable trim! I have the VTS buttons on the handlebars that should allow it to be adjusted up and down. On the screen it says that the trim is at the lowest setting, and the nozzle is pointed down. The VTS button doesn't seem to work. Any suggestions or has anybody had this problem?IH International Harvester Tractor Service Shop Manuals.
