Knowing what's "normal" and what's not in speech and language development can help you figure out if you should be concerned or if your child is right on schedule. Definition. Hearing loss exists when there is diminished acuity to sounds normally heard. The terms hearing impaired or hard of hearing are usually reserved for people who have relative inability to hear sound in the speech frequencies. Freedom of speech is a principle that supports the freedom of an individual or a community to articulate their opinions and ideas without fear of retaliation, censorship, or legal sanction. The term "freedom of expression" is sometimes used synonymously but includes any act of seeking, receiving, and imparting information or ideas, regardless of the medium used. Physical activity and sleep. Being active is an important part of building a healthy body and brain. Babies need to be able to move and exercise the muscles in their arms, legs, shoulders and neck.
