

Download Translational Oral Health Research

Applications for round four closed in October 2018. For round five in 2019, the Office for Health and Medical Research will be focusing on building translational research capacity in the health system, and consulting with local health districts and specialty networks to refine the Scheme's priorities. Authors are invited to submit abstracts for poster presentations, an abstract from each of the below areas submitted by a student / early career researcher will be chosen for oral presentations and a sponsored prize will be awarded to the best student researcher oral presentation. A moderated poster session will also take place and a sponsored prize will be awarded to the best poster. Note: Below is the executive summary of the first U.S. Surgeon General's Report on oral health, published in July 2000. The full report is available as a PDF: Oral Health in America: A Report of the Surgeon General. A new Surgeon General's report on oral health is now in development, as was announced by Surgeon General Jerome M. Adams, MD, MPH, in July 2018. The largest college of dentistry in the state of IL, located in Chicago, worldwide leader in oral health education, clinical care and research. We are a part of UI Health and the University of Illinois at Chicago, Chicago's largest university.
