The commons is the cultural and natural resources accessible to all members of a society, including natural materials such as air, water, and a habitable earth. These resources are held in common, not owned privately. Commons can also be understood as natural resources that groups of people (communities, user groups) manage for individual and collective benefit. Epistemology (/ ɛ p ɪ s t ə m ɔː l ə dʒ i / (); from Greek, Modern ἐπιστήμη, epistḗmē, meaning 'knowledge', and -logy) is the branch of philosophy concerned with the theory of knowledge.. Epistemology is the study of the nature of knowledge, justification, and the rationality of belief. Much debate in epistemology centers on four areas: (1) the philosophical analysis of ...Informal learning: theory, practice and experience. In recent years a number of researchers and policy pundits have rediscovered 'informal learning'. There are a number of contrasts in this model of curriculum theory and practice as compared with the product model. First, where the product model appeals to the workshop for a model, this process model looks to the world of experimentation.
