It is important to mention that we see no significant statistical differences in the colors of the ... Make sure this fits by entering your model number.;

PROFESSIONAL CALIBER: i1Display Pro combines ambient light measurement, monitor profiling & projector profiling into a sleek, compact and fully integrated device at 5 times faster measurements than previous devices, offering unrivalled color precision.

Lumariver Profile Designer is a software that makes profiles for your camera (or scanner), either in DNG Camera Profile (DCP) or ICC format, thus supporting almost all raw converters on the market. Like any profile maker it can be used for reproduction like copying artwork, but it's also specifically designed to make general-purpose profiles which provide both accurate and attractive colors.
